

Family Resource Center Association

FRCA Family Support Service Delivery Model & Implementation tool.

General Services Path

Individuals receive referrals and brief assistance from the Family Resource Center. Individuals on this path might receive:

- Phone/walk-in information/referrals to another organization
- Non-cash assistance (clothing, food)

Data tracking, FRC staff tally the number of general services and report it on an aggregate level.

Center Services Path

Individuals participate in programs and services at the Family Resource Center. Individuals on this path might:

- Participate in parenting education programs; life skills, job training or education classes; or health insurance enrollment.
- Receive financial emergency assistance such as housing, utility, or medical aid.

Data tracking, Required demographic and screening questions, program attendance, referrals, and other services.

Family Development (FD) Path

Families actively work with staff at the FRC/agency, setting goals, and using assessments to track family progress towards their goals.

Families receive FD work and coordinated case management and might participate in other General or Center services as well.

Data tracking, Required demographic and screening questions, The Colorado Family Support Assessment 2.0 (CFSA 2.0), referrals, and goal progress.

Part A: CFSA 2.0 Domains

This section consists of 14 domains, which assess family stability and self-reliance, including income, housing, food security, transportation, health coverage, etc.

Part B: Protective Factors Survey

Assesses Five Protective Factors that prevent child abuse and neglect: 1. Parental Resilience 2. Social Connections 3. Concrete Support in Times of Need 4. Knowledge of Parenting and Child Development 5. Social and Emotional Competence of Children
(Developed by the FRIENDS National Center.)

Part C: Readiness to Change

Families identify up to three areas where they would like to make a change. Families reveal how ready they are to make those changes.
