COMMUNITIES OF PRACTICE

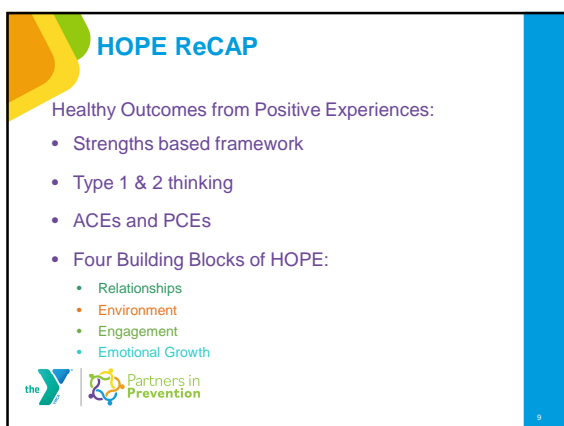

What can you expect?

- **Participant led.** These sessions will be facilitated but the focus and direction will be led by what you agree to as a group.
- **Discussion heavy.** The bulk of our time together will be structured around discussion groups so you can share how and what the training concepts will look like in action in your scope of work.
- **Collaborative Practice.** We are engaging in social learning where we can share ideas on how to move concepts into practice. It requires participation and reification (making concepts concrete) in order to make learning meaningful.
