FAMILY FIRST PREVENTION SERVICES ACT (FFPSA) PART I OF 2018

The Family First Prevention Services Act (FFPSA) was passed and signed into law (P.L. 115-123) as part of the Bipartisan Budget Act on February 9, 2018.

- New option for States and Tribes to claim Title IV-E entitlement funds for evidence-based prevention and trauma-informed services for children and youth who are deemed candidates (at imminent risk for entry into foster care)
- Evidence-based interventions funded by Title IV-E must be selected from the Title IV-E Prevention Clearinghouse, fall within one of the following categories, and be included in California's Five-Year State Prevention Plan
 - In-home parent skill-based programs
 - Mental health services, and
 - Substance abuse prevention and treatment services
- The legislation is intended to reduce entries into care by funding prevention services and interventions to mitigate imminent-risk factors and maintain a child and youth's placement in-home

19

CALIFORNIA ASSEMBLY BILL (AB) 153

The state Budget Act of 2021 includes funding to support prevention planning or service activities consistent for Title IV-E prevention services established by Part 1 of FFPSA.

Assembly Bill 153:

- Offers funding to develop a Comprehensive Plan which includes **primary, secondary, and tertiary intervention strategies** and services to support the ability for parents and families to provide safe, stable, and nurturing environments for their children.
- It requires a cross-sector collaborative approach to include tribes and the voices of those disproportionately impacted by child and family welfare systems.

20

ROADMAP FOR COMPREHENSIVE PLANNING AND
IMPLEMENTATION?

WHAT TYPE OF SUPPORT CAN BE EXPECTED?

31

Local Coordination of Behavioral Health and Child Welfare

- Comprehensive Prevention Planning requires early engagement in cross-sector planning and collaboration. Engagement of county MHPs in the FFPS Program opt-in decision process is essential for cross-sector planning and collaboration.
- Agencies must pay special attention to the role of the Mental Health Plan (MHP) specifically as it relates to care coordination for Medi-Cal eligible beneficiaries when a behavioral health service is indicated.
- Consultation with the MHP is required before the FFPS LOI and the local CPP is submitted.
- The MHP's input regarding the Title IV-E agency's selection of EBPs for the FFPS Program is necessary when the EBPs include services that are administered by the local behavioral health agency

32

Local Coordination of Behavioral Health and Child Welfare

- Title IV-E Agencies that elect to provide FFPS Program prevention services must establish a joint written protocol based on the CDSS and DHCS model joint written protocol pursuant to WIC § 6588(f)(2).
- The protocol established by the Title IV-E agencies' is used to determine which system program is responsible for payment, in part or whole, for a prevention service provided on behalf of an eligible child by
- Child welfare agency, probation department, behavioral health agency, and other appropriate entities must use the protocol to determine and coordinate who will responsible to pay for the prevention services.

KEY POINTS TO REMEMBER DURING THE PROCESS

Tools to assist during the process: Capacity Assessment and Readiness Assessment

- Leveraging funding from other sources
- Identifying partners to include in the planning and implementation process
- Assessing the capacity of current systems and providers necessary to implement services
- Leveraging current initiatives such as Prevention Planning Teams, AB 2083 System of Care work

35

35

LEVERAGING INITIATIVES TO DEVELOP A COMPREHENSIVE PREVENTION PLAN (CPP)

AB 2083	OCAP Prevention Planning Teams
<ul style="list-style-type: none"> • Cross-sector team structure and Inter Leadership Teams can be utilized as an Advisory Committee for Comprehensive Prevention Plan (CPP) • MOU data sharing agreement can be utilized to complete asset mapping and needs assessment • Expanding the system of care accountability requirement to ensure timely access to services and supports for children and youth prior to entry into child welfare 	<ul style="list-style-type: none"> • OCAP Prevention Planning Teams (PPT) which are cross-sector collaborative entities can be leveraged as Advisory Committee for CPP • Any charters or MOUs in place can be utilized to share information • Asset mapping that has been completed can be used to inform the current CPP • Focus of OCAP PPTs is primary and secondary prevention strategies; these strategies can be included within the CPP in addition to tertiary strategies

WHAT ABOUT DATA AND AUTOMATION?

- The state is required to report and collect child-level data and will include basic demographics, services received, total expenditures for each service, duration of the service, and placement status following the services
- Automation will streamline processes for candidacy, prevention plan, and oversight
- Data will be collected to meet federal reporting requirements and demonstrate that services are reducing foster care placement, increasing kinship placements, and improving child well-being
