Percent of knowledge check questions answered correctly after the training: 82.2%

Average improvement on knowledge check responses from registration to post-training: 20.7 POINTS (on a scale of 0 - 100)

What CalTrin Learners are Saying

The presentation was one of the best I've attended from CalTrin. I always marvel at and appreciate CalTrin offering these high-quality trainings for no cost. What a gift!

Halfway into the training, I sent the rest of the series to my colleagues because it was wonderful information...

As always, I have come away from one of your trainings with so many ideas and some immediate actions to help improve our services, our team, and myself.

For more training testimonials and to hear directly from our users on how CalTrin trainings support their work with children and families, visit the [Why CalTrin](#) page.
